

BARNHART SUMMER PROGRAM

ENRICHMENT CLASS INFORMATION

PERIOD 1 | 8:45AM - 9:40AM

Welcome to Kindergarten (Three Period Class) - Are you ready to meet your new friends that you will be in Kindergarten with? Come and join us as we review our preschool skills to get ready for kindergarten. Work on learning the routine of being a “big” student so you are all set to begin kindergarten in the fall. Part of our morning will be spent on practicing the alphabet, numbers, shapes, and colors. We will also introduce workstations and begin to explore Writer’s Workshop. Bring your taste buds...we will be cooking, too!

Instructor: *Badzey*

Puppet Zoo Animals - We all love zoo animals! Let’s craft puppets of some of the many zoo animals we can find at the zoo. Kangaroos, gorillas, leopards to name a few.

Instructor: *MacLellan*

Math Games - What’s the best way to practice math skills and facts? GAMES! There’s no better way to stretch those math brains this summer! We will use music, cards, dice, and other hands-on materials to play our way through the fundamentals. We may even earn some prizes along the way!

Instructor: *Hawks*

Summertime Snack Attack - Cutting boards and creativity combine to capture your imagination in the kitchen. Let your creative side take over as you learn the basics of cooking.

Instructor: *Adams*

Typing Masters - This class is designed to help your student improve their speed, accuracy, and comfort with keyboarding skills. By learning how to type quickly and accurately, your student will more easily be able to communicate thoughts and ideas. Your student will practice by way of lesson drills, games, challenges, and story writing.

Instructor: *Hauge*

World Culture - Join our very own Bobcat Mr. Lopez as you journey around the world to four countries: Mexico, Italy, Israel, and Japan. You will explore each country’s history, language, culture, music, sports, and of course some yummy food. You won’t want to miss this chance to become a world-class travel adventurer!

Instructor: *Lopez*

Basketball Camp (Two Period Class) - Want to learn how to be a better shooter and jump higher than your opponents on the court while building your basketball IQ? Join Coach Hardin as she takes you through fun drills, and helps you build your defensive resume along with your offensive knowledge. Learn the philosophy of a winning program which encourages teamwork, patience, enthusiasm, and hard work!

Please wear comfortable clothing and tennis shoes (no Vans or Converse), bring a reusable water bottle, small hand towel and the desire to improve your basketball skills.

Instructor: *Hardin*

BARNHART SUMMER PROGRAM

ENRICHMENT CLASS INFORMATION

Jewelry Design - It is so much fun to make your own jewelry! In this class students will let their creativity run wild with handmade jewelry projects. Students will learn to create beautiful jewelry with the simplest supplies. They will combine diverse materials and techniques to create pieces they will be proud to wear.

Instructor: *Barreras*

LEGO Stop Motion - Students will be using Legos and iPads to create a small story using stop motion animation. Bring your creativity and mad LEGO skills to create a memorable movie masterpiece!

Instructor: *Kever*

Ukulele - California meets Hawaii! Come join this class and learn to play the Ukulele. We will explore the world of string instruments and how the ukulele fits in. We will learn the basics of chart reading, chord playing, strumming patterns, and by the end have several fun traditional songs to play!

Instructor: *Yoder*

PERIOD 2 | 9:45AM - 10:40AM

Welcome to Kindergarten (Three Period Class) - Are you ready to meet your new friends that you will be in Kindergarten with? Come and join us as we review our preschool skills to get ready for kindergarten. Work on learning the routine of being a "big" student so you are all set to begin kindergarten in the fall. Part of our morning will be spent on practicing the alphabet, numbers, shapes, and colors. We will also introduce workstations and begin to explore Writer's Workshop. Bring your taste buds...we will be cooking, too!

Instructor: *Badzey*

Farm Animals and Crafts - Let's make farm animals out of simple shapes like ovals, rectangles, hexagons, and more. Then we can read stories about farm animals. Two of my favorite stories are "The Day Jimmy's Boa Ate the Wash" and "Pete the Cat; Old MacDonald Had a Farm."

Instructor: *MacLellan*

World Culture - Join our very own Bobcat Mr. Lopez as you journey around the world to four countries: Mexico, Italy, Israel, and Japan. You will explore each country's history, language, culture, music, sports, and of course some yummy food. You won't want to miss this chance to become a world-class travel adventurer!

Instructor: *Lopez*

Discovery Research - Students will use a variety of website building techniques to create pages that represent their various interests. Student will learn page layouts, photo placement, and basic web design.

Instructor: *Hauge*

Passion for Fashion - Get ready to discover your inner fashion designer! In this class, students will turn ordinary plain white T-shirts into original works of fashion. They will use techniques such as handmade appliques, hand dyeing, stencils, and photo transfers to completely transform these T-shirts into unique works of art. So come join us and enhance your wardrobe with these fully personalized pieces.

Instructor: *Barreras*

BARNHART SUMMER PROGRAM

ENRICHMENT CLASS INFORMATION

Percussion Playtime - Boom! Crash! Whack! This class will teach students the basics of rhythm and drumming. As a group, we will play traditional rhythms, rock and pop songs, and music games. The class will culminate in a final performance for parents and friends.

Instructor: Yoder

STEM Challenge - Calling all scientists, inventors, and engineers! In this class, we will complete a daily STEM challenge. We'll make towers out of index cards, create wind powered vehicles, and protect eggs when they are dropped from 20 feet high. Are you up for the challenge?

Instructor: Hawks

LEGO Stop Motion - Students will be using Legos and iPads to create a small story using stop motion animation. Bring your creativity and mad LEGO skills to create a memorable movie masterpiece!

Instructor: Kever

Basketball Camp (Two Period Class) - Want to learn how to be a better shooter and jump higher than your opponents on the court while building your basketball IQ? Join Coach Hardin as she takes you through fun drills, and helps you build your defensive resume along with your offensive knowledge. Learn the philosophy of a winning program which encourages teamwork, patience, enthusiasm, and hard work!

Please wear comfortable clothing and tennis shoes (no Vans or Converse), bring a reusable water bottle, small hand towel and the desire to improve your basketball skills.

Instructor: Hardin

Metal Working - Metal Working/Repujado is traditional metal embossing popular in the Mexican state of Michoacan. It is recognizable by its imagery and use of pattern. In this class, students will learn the history of Repujado, iconography, and traditional techniques associated with metal embossing. Students will have the opportunity to work with several metals and create traditional and modern works.

Instructor: Cervantes

Summertime Snack Attack - Cutting boards and creativity combine to capture your imagination in the kitchen. Let your creative side take over as you learn the basics of cooking.

Instructor: Adams

PERIOD 3 | 11:05AM - 12:00PM

Welcome to Kindergarten (Three Period Class) - Are you ready to meet your new friends that you will be in Kindergarten with? Come and join us as we review our preschool skills to get ready for kindergarten. Work on learning the routine of being a "big" student so you are all set to begin kindergarten in the fall. Part of our morning will be spent on practicing the alphabet, numbers, shapes, and colors. We will also introduce workstations and begin to explore Writer's Workshop. Bring your taste buds...we will be cooking, too!

Instructor: Badzey

Fairytale Writing - Wizards and dragons and magic, oh my! In this class, we will read fairy tales from around the world and write our own as well. On the last day of class, we'll have a publishing party to share our stories and celebrate our work.

Instructor: Hawks

Instructor: *Hawks*

Clay Explorations - Dare to be wild and crazy! Let your imagination flow as you turn a chunk of clay into a creative masterpiece.

Instructor: *Adams*

Sports Around the World - Enjoy various sports from around the world in this unique camp setting! Did you know that in 1721, the game of Cricket was played in India, or that the game of Volleyball was invented in Holyoke, Massachusetts, or in 1895 or that the game of Lacrosse was actually a tribal game from Canada? Come play these awesome international games and learn their rules when we play handball from Denmark, tennis from England, soccer from Mexico, and American Football, which was invented in 1906!

Please wear comfortable clothing and tennis shoes (no Vans or Converse), bring a reusable water bottle and a desire to just have fun!

Instructor: *Hardin*

World Culture - Join our very own Bobcat Mr. Lopez as you journey around the world to four countries: Mexico, Italy, Israel, and Japan. You will explore each country's history, language, culture, music, sports, and of course some yummy food. You won't want to miss this chance to become a world-class travel adventurer!

Instructor: *Lopez*

Drawing and Painting - In this class we will focus on three pillars of visualization: landscape, abstraction, and the human form. The primary mediums will be traditional dry materials like charcoal, graphite, and pastels along with wet materials in acrylic paint, watercolor, and oil pastel.

Instructor: *Cortes*

LEGO Mindstorms - This class is an extension class for students who have taken the basic Mindstorms class. In this next level, students will delve deeper into building and designing robots. Students will be challenged to build and program the LEGO Mindstorms NXT robot using the engineering process to build and program a robot to complete various real world challenges. We will also review basic building and programming techniques before adding new skills. Students will work in teams of two/three —friends are welcome to sign up together and can be partners.

Instructor: *Kever*

BARNHART SUMMER PROGRAM

ENRICHMENT CLASS INFORMATION

Comic Book Art - In Comic Creation your child will get to create and illustrate their own comic while learning about the history and properties of what's needed to make a successful comic work. Students will get to brush up on their creative writing and be taught some drawing techniques that will help them bring their stories to life!

Instructor: *Hauge*

Junior Lifeguard Program - Our brand new, Junior Lifeguard program is geared towards children ages 10 and up. In this class, students will learn lifesaving strokes, learn basic cpr and first aid, and engage in fitness swims. Junior Lifeguarding exposes participants to what it takes to be a lifeguard. It also builds a sense of accomplishment and competency in the water. All participants will receive a Junior Lifeguard t-shirt and a certificate of completion. Join in our inaugural class!

Instructor: *Cervantes*

To Read or Not to Read... - Are you a great reader who loves to put on a show? Together, we'll read some hilarious stories and make them come to life through the power of our own voices! We'll also learn different ways to warm up our voices with some tricky tongue twisters and theater games. This is a terrific opportunity to build confidence and expression while having fun reading!

Instructor: *Yoder*

PERIOD 4 | 12:45PM - 1:40PM

Colorful Playtime - Children will learn how to throw, catch, toss and wiggle their hips with different colored equipment. They will be playing with soft, squishy balls, bean bags, hula hoop, and a giant parachute! Students need to wear comfortable clothing and tennis shoes with socks, and bring a reusable water bottle with their name on it, everyday!

Instructor: *Yoder*

Math and Art - Math comes alive as students explore the creative side of math. Art and the student's natural creativity will be used to help students enjoy the beautiful world of mathematics.

Instructor: *Adams*

Simple Science Experiments - Anyone can be a scientist! Scientists observe, ask questions, investigate, and draw conclusions. Make your own erupting lemon volcano or underwater magic sand. If you want to be a scientist, come join us this summer.

Instructor: *MacLellan*

Beginning Swimming - Join us in the pool this summer. Cool off and learn to swim. Beginner Swimming is a basic introduction to swimming techniques and strokes. All classes are taught by certified instructors and under close supervision.

Instructor: *Cervantes*

Puzzle Pizzaz - Explore the mind-stretching world of Sudoku, jigsaw puzzles, coordinate grids, crosswords, and more! Learn and share your best strategies while finding new and fun ways to problem solve with friends.

Instructor: *Hauge*

BARNHART SUMMER PROGRAM

ENRICHMENT CLASS INFORMATION

Sculpture - Students will design concepts for sculptural concepts using traditional practices with contemporary materials. Rendering a drawing, Working through a painting, and constructing a sculpture will be the step by step process that the young artists learn to process ideas within. Students will also learn of relevant art historical figures and movements from the past and present that refer to the work they are doing. The classroom will be treated like a shared working artist studio space where students will be expected to respect one another, their ideas, and the environment around them.

Instructor: Cortez

Google Suite Masters - Students will be navigating through different tools and their functions in Google Drive- including Sheets, Docs, and Slides. Typing will be practiced to improve their technology skills.

Instructor: Kever

Research and Writing - Research like a scientist! What do you want to learn about? In this class, we'll use nonfiction texts and digital resources to find the answers to our questions. Then we'll create research booklets to share our learning.

Instructor: Hawks

World Culture - Join our very own Bobcat Mr. Lopez as you journey around the world to four countries: Mexico, Italy, Israel, and Japan. You will explore each country's history, language, culture, music, sports, and of course some yummy food. You won't want to miss this chance to become a world-class travel adventurer!

Instructor: Lopez

PERIOD 5 | 1:45PM - 2:40PM

Clay Explorations - Dare to be wild and crazy! Let your imagination flow as you turn a chunk of clay into a creative masterpiece.

Instructor: Adams

Eight Authors - Calling all your favorite authors and many more . We will learn about the author's life and include some of your favorite authors. You will be entertained by listening and reading their books too!

Instructor: MacLellan

Wacky Science - Do you ever wonder what it would be like to be a mad scientist? Then Wacky Science is the class for you! Each day, we'll do a new mind blowing experiment and learn something crazy about the world around us.

Instructor: Hawks

World Culture - Join our very own Bobcat Mr. Lopez as you journey around the world to four countries: Mexico, Italy, Israel, and Japan. You will explore each country's history, language, culture, music, sports, and of course some yummy food. You won't want to miss this chance to become a world-class travel adventurer!

Instructor: Lopez

Advanced Swimming - In Advanced Swimming, participants will work to improve strokes and skills learned in the Beginner Swimming. Swimmers should be able to swim freestyle with side breathing to participate in this class. Skills taught include breaststroke, backstroke, and treading.

All classes are taught by certified instructors and under close supervision.

Instructor: Cervantes

BARNHART SUMMER PROGRAM

ENRICHMENT CLASS INFORMATION

Art Exploration - Each class will begin with a brief history regarding subject matter and media to aid in the student's understanding of that day and the overall aim of the class. This class will introduce various art making media, ranging from watercolors, photography, collage, acrylic paints, inks, etc. However, each student will be allowed the freedom of choice in which media they wish to employ in addressing certain subject matter. The class will investigate three main subjects; the landscape, the living form, and the abstract.

Instructor: Cortes

Intro to Photography - This introductory course gives an overview of basic technical and conceptual skills in digital photography, with an emphasis on the expression of ideas through digital photographs. In this class, students will demonstrate the principles of photographic composition, digital image editing, and digital image manipulation.

Instructor: Hauge

Wacky Sports - Students will be playing soccer (using two balls), softball (going through the entire line-up when you are up to bat), flag football (mini football used) and tennis (on the handball courts)

Please wear comfortable clothing, tennis shoes with socks (no Vans or Converse), bring a reusable water bottle and small hand towel!

Instructor: Hardin
